

Eagle County Regional Airport Emergency Contingency Plan

Eagle County Regional Airport (EGE) has prepared this Emergency Contingency Plan pursuant to §42301 of the FAA Modernization and Reform Act of 2012. Questions regarding this plan can be directed to Alex Everman at Alex.Everman@eaglecounty.us. Eagle County Regional Airport is filing this plan with the Department of Transportation because (1) it is a commercial airport or (2) this airport may be used by an air carrier described in USC 42301(a)(1) for diversions.

This plan describes how, following excessive tarmac delays and to the extent practicable, Eagle County Regional Airport will:

- Provide for the deplanement of passengers;
- Provide for the sharing of facilities and make gates available at the airport; and
- Provide a sterile area following excessive tarmac delays for passengers who have not yet cleared United States Customs & Border Protection (CBP).

Eagle County Regional Airport has facility constraints that limit our ability to accommodate diverted flights or maintain the airport's safe operation and strongly encourages aircraft operators to contact the airport at 970-328-2680 for prior coordination of diverted flights, except in the case of a declared in-flight emergency. Specific facility constraints include the lack of international passenger processing facilities. During diversion events, EGE issues NOTAMs regarding its ability to accommodate diverted flights to ensure the safe and efficient operation of the airport and its ability to accommodate diverted flights to ensure the safe and efficient operation of the airport and its ability to serve the civil aviation needs of the public during irregular operations events.

Airport Information

Name of Airport: Eagle County Regional Airport (EGE)

Name and title of person preparing the plan:

Alex Everman, Assistant Aviation Director of Operations

Preparer contact number: (970) 328–3578

Preparer contact e-mail: Alex.Everman@eaglecounty.us

Date of submission of plan: 05/11/2012 – Originally Submission
10/01/2014 – Updated Contact Information
05/17/2017 – Updated

Airport Category: Non Hub

Contact Information

In the event of diversion or other irregular operations events, aircraft operators should contact the Airport Duty Manager at (970) 328–2688, (970) 328–2680, (719) 238–1116 or Alex.Everman@eaglecounty.us.

Plan to Provide for the Deplanement of Passengers Following Excessive Tarmac Delays

EGE does not own or operate any of the equipment needed to safely deplane passengers from air carrier aircraft and is, therefore, unable on its own to provide for the deplanement of passengers. Additionally airport personnel are not trained to assist in the deplanement of passengers using equipment owned or operated by air carriers or contract service providers. EGE will provide a list of airlines, ground handlers, fixed base operators and others who may have the necessary equipment and personnel to safely deplane passengers to airlines as soon as practicable after receiving requests from such airlines experiencing excessive tarmac delays at the contact number listed above.

Plan to Provide for the Sharing of Facilities and Make Gates Available in an Emergency

The gates at EGE are under preferential lease to air carriers and are not fully controlled by the airport during those time periods when the tenant's usage of that gate meets the usage specified in the preferential use lease. We may be able to direct a tenant airline to accommodate another air carrier aircraft at its preferentially leased gate during those time periods when the tenant airline is not using, or not scheduled to use, the gates. We will work with our tenant air carriers to make gates and other facilities available to an air carrier seeking to deplane at a gate during those time periods the gates are not in use or not scheduled to be in use, to the maximum extent practicable.

Plan to Provide a Sterile Area for Passengers Who Have Not Cleared United States Customs and Border Protection

EGE does not have international passenger processing facilities. We will coordinate with local CBP and law enforcement officials to identify suitable areas and procedures for establishing a temporary sterile area into which international passengers on diverted aircraft who have not yet cleared United States Customs and Border Protection can be deplaned. Once these efforts are complete, we will coordinate with local CBP officials to develop procedures that will allow international passengers who have not yet cleared United States Customs and Border Protection to be deplaned into these sterile areas to the extent practicable.

Public Access to the Emergency Contingency Plan

EGE will provide public access to its emergency contingency plan through the following means:

- Posting in a conspicuous location on the airport website at the following locations;
 - <http://www.flyvail.com/html/airport-info/emergency-contingency-plan.html>
